

DesignPlace:

Creating Collaborations for Creating Place

DesignAlabama is a citizen-led, not-for-profit corporation that is an action oriented outreach component of the Alabama State Council on the Arts. **Design**Alabama's primary mission is to advocate for the collaboration of design professions and their importance in creating and enhancing place and quality of life in Alabama.

DesignPlace is a program of **Design**Alabama. **Design**Place's primary goal is to provide those communities who have participated in the **Design**Alabama Mayors Design Summit with a next step in advancing the recommendations of the Summit. Successful applicants to **Design**Place will receive technical assistance that can help their communities apply good planning and design to leverage their town's assets. The intent is not to remake a community, but to make it better by taking advantage of its physical, economic and human resources. The process is grassroots and on-the-ground in each selected community and can focus the efforts of the entire community on strategic opportunities and options.

COMMUNITY INFORMATION

Community Name: _____

Mailing Address: _____ City/State: _____ Zip Code: _____

Email: _____ Phone: _____

Nominee Organization if Other than City: _____
